AUSTRALIAN PROJECT &
CONSULTING SERVICES

Brisbane Convention & Exhibition Centre,
Queensland, Australia
23 - 26 August 2010

www.pmoz.com.au

You are invited to submit papers addressing the overall theme and one or more of the sub themes. Submissions from academia, construction, mining, engineering, urban development, business, human resources and ICT industries are welcome.

PMOZ has a great reputation for providing a range of stimulating sessions whilst blending both practical and theoretical papers into an exciting Conference. The program coding system will allow delegates to easily differentiate the industry focus of each presentation.

Conference Theme

Building on the Global Recovery

Skilled project management has been a key underpinning of the global recovery and stimulus packages world-wide. In projects, ranging from the 100s of small school projects started in 2009 to the major nation building projects now beginning, the role of effective project management in helping spend the public's investment wisely has been paramount. But this is only part of the picture! As we move into the second decade of the 21st century, rebuilding and development will be central to the success of every organisation.

Sub Themes

Rebuilding and developing the profession

Rebuilding and developing business and industry

Emerging trends and issues

How to be a Presenter

To submit a paper to present at PMOZ, please, visit www.pmoz.com.au. All instructions and guidelines on how to submit online are listed here. Proposals for half day conference and post-conference workshops should be forwarded directly to pmoz@eventcorp.com.au

The Conference aims to:

- Provide cutting-edge presentations to address the current local and global project management business environment
- Provide a vibrant environment for individuals to learn
- Support the recognition of excellence
- Provide a forum for education, knowledge transfer and the development of new skills across various industries and sectors with the project management and the enterprise management community
- Promote networking for business opportunities
- Promote the continuous improvement of industry standards
- Promote continuous improvement and professionalism within project management and the enterprise management communities
